EXECUTIVE SUMMARY

During calendar year 2009, Maryland operators produced a total of 2,491,189.47 tons of coal. Surface coal mining production was 1,311,898.14 tons in Allegany County and 711,166.09 in Garrett County. Deep coal mining production was 468,125.24 tons, all in Garrett County.

One hundred-nineteen coal mine permit actions were received and one hundred-eleven permitting actions were issued, including issuance of two original permits, five permit increments, and twelve permit amendments, totaling 189 acres. Included in the permitting actions were twenty-six operator's license renewals. Other permit actions included: modifications, transfers and prospecting permits.

Two hundred fifty-three acres were affected, 250 acres backfilled, and 250 acres planted. Bond was totally released on 297 acres. There were two permits completed during 2009.

Seven hundred seventy-three inspections were performed on coal mining operations. Seven Notices of Violation were issued. Eighteen Citizen Complaints were received and investigated and there were zero cessation orders issued. There were zero Bond Forfeitures during this calendar year.

The Land Reclamation Committee met seven times and approved eleven reclamation plans. The Committee also evaluated the revegetation on 387 acres eligible for Phase II bond release and approved 204 acres as meeting the standards for release. There were no reclamation plan changes during the year.

The Abandoned Mine Lands Division completed ten projects during Calendar Year 2009. Projects, totaling \$1,049,788 in construction costs, were completed using the various fund sources. The projects eliminated impacts from past coal mining by stabilizing a county road from the impacts of deep mine subsidence, sealed abandoned deep mine entries, eliminated two gob piles, constructed three Acid Mine Drainage (AMD) treatment systems, and modified three existing AMD treatment systems. One bond forfeiture project was completed to stabilize an existing stream crossing and remove perimeter control ditches.

FOR THE CALENDAR YEAR 2009
FUNCTIONS AND DUTIES OF THE LAND RECLAMATION COMMITTEE

The Land Reclamation Committee is responsible for the approval of all reclamation plans submitted, as part of an application for a permit, to the Bureau of Mines and for the oversight of land reclamation activities on surface coal mining operations in Maryland.

The Land Reclamation Committee visits proposed and active mining sites to:

- (1) Determine the suitability of proposed reclamation plans;
- (2) Review mining and reclamation progress; and
- (3) Evaluate the success of revegetation practices.

During 2009, the Land Reclamation Committee conducted site visits on 5 days. These visits included field reviews of 5 proposed mining sites and 28 revegetation sites to evaluate the success of the revegetation.

The Land Reclamation Committee conducts meetings to:

1. Review and approve reclamation plans;
2. Review reclamation progress on active mining permits;
3. Evaluate the revegetation on areas eligible for Phase II bond release;
4. Review the surface coal mining laws, regulations and policies and recommend changes to improve effectiveness of the Maryland Regulatory program; and
5. Recommend research and cost-sharing projects to promote optimum revegetation of mine lands.

During 2009, the Land Reclamation Committee met seven times. During these meetings, the Land Reclamation Committee approved eleven reclamation plans, evaluated 387 acres of revegetation eligible for Phase II bond release and approved 204 acres as meeting the standards for release. There were no reclamation plan changes during the year.

2009 Reclamation Award

Permit SM-84-338 Vindex Energy Corporation

Reclamation on this 171 acre site near Barton was difficult due to on site conditions. The operator had to overcome several obstacles to produce a site that is a mixture of pasture and wooded areas.

Pre-law strip mine operations reduced the amount of available topsoil on this site. Fire in the Big Vane Pittsburgh coal seam produced severe heat that escaped through the surface making difficult mining conditions. Steep slopes on parts of the permit led to the need for numerous diversions to control erosion. Forty acres have been reclaimed using the Forest Reclamation Approach of non-compacted backfill. The remaining area is currently used to pasture cattle. This permit was nominated for the Appalachian Regional Reforestation Award for 2008.

FOR CALENDAR YEAR 2009 ABANDONED MINE LAND DIVISION

During 2009, the Abandoned Mine Land Section and the Acid Mine Drainage Section, formerly under the Bureau of Mines, were combined to form the Maryland Department of Environment, Land Management Administration, Mining Program, Abandoned Mine Land Division (AML D). The AML D uses funds made available by Title IV of the federal Surface Mining Control and Reclamation Act of 1977 (SMCRA), the Clean Water Act, 319(h), the Maryland Deep Mine Fund and various other State and federal grants to reclaim and restore land and water resources adversely impacted by “pre-SMCRA” coal mining under the authority of Environment Article, Title 15, Subtitle 11 of the Annotated Code of Maryland. The AML D also fulfills the reclamation requirements on “post-SMCRA” coal mines in which the authorizing permits have been revoked for non-compliance of state mining laws and the reclamation bond forfeited. This is accomplished using funds acquired through forfeiture of bonds and the Bond Supplemental Reserve (a sub-account of the Bituminous Coal Open-Pit Mining Reclamation Fund) under the authority of Environment Article, Title 15, Subtitle 5.

The Maryland Abandoned Mine Land Reclamation Division received grants from the various funding sources to accomplish the following projects for Calendar Year 2009.

MIDLOTHIAN – SHAFT ROAD SUBSIDENCE CONTROL PROJECT

Location: 1.5 miles east of Frostburg, Allegany County.
Nature: Stabilization of the road surface to eliminate hazardous driving conditions caused by deep mine subsidence.
Completion Date: March 2009
Contractor: Coastal Drilling
Cost: \$388,716
Fund Source: MD-Federal AML Funds
