

**August 1, 2020**

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Monday, August 31, 2020.

**Water Supply Program - (410) 537-3590**

**County: Caroline**

CO2020S005/01: Michael J. Wood has applied to appropriate and use an annual average of 87,600 gallons of surface water per day (gpd) and a maximum daily withdrawal of 1,224,000 gallons for crop irrigation. Water will be withdrawn from an intake on Tuckahoe Creek. The project is located at 22710 Deep Branch Drive, Denton, Caroline County, Maryland.

**County: Charles**

CH2020G001/01: Charles County Commissioners has applied to appropriate and use an annual average of 23,500 gallons of groundwater per day (gpd) and an average of 71,400 gpd during the month of maximum use. Water will be taken from up to 6 wells in the Columbia Aquifer to lower the water table to facilitate the construction of a flow equalization basin. The project is located at 5310 Hawthorne Rd, La Plata, MD 20646
