

COMPOSTING WITH COMPOST CREW

Food Summit 2024

ABOUT COMPOST CREW

Compost Crew is a Maryland-based business that diverts tens of thousands of tons of organic waste from landfills, each year.

We haul organic waste from over 20,000 residents and businesses across the DMV.

We offer a variety of services including weekly curbside pick-up, community programs, drop-off locations, roll-off and operating local composting sites.

"Our mission is to protect the planet, reduce waste and build community wealth. We are committed to recovering compostable waste, reducing dependence on landfills and incinerators, and revitalizing our soils. We will never compromise on that commitment."
