

April 1, 2024

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Tuesday, April 30, 2024.

Water Supply Program - (410) 537-3590

County: Caroline

CO2024S004/01: James William Lewis, Jr has applied to appropriate and use an annual average of 22,000 gallons of surface water per day and a maximum daily withdrawal of 288,000 gallons for crop irrigation at the Hidden Field Farm. Water will be withdrawn from an intake on an unnamed tributary to Forge Branch. The project is located at 12590 Holly Road, Ridgely, Caroline County, Maryland.

CO2024S005/01: James William Lewis, Jr has applied to appropriate and use an annual average of 86,000 gallons of surface water per day and a maximum daily withdrawal of 720,000 gallons for crop irrigation at the River Farm. Water will be withdrawn from an intake in the Choptank River. The project is located at 12385 Holly Road, Ridgely, Caroline County, Maryland.

CO2024S006/01: James William Lewis, Jr has applied to appropriate and use an annual average of 44,000 gallons of surface water per day and a maximum daily withdrawal of 326,000 gallons for crop irrigation at the Eli Field Farm. Water will be withdrawn from a pond on an unnamed tributary of the Choptank River. The project is located approximately 0.3 mile southwest of the intersection of Holly and Ridgely Roads, Ridgely, Caroline County, Maryland.

County: Cecil

CE2024S001/01: Ise America, Inc. has applied to appropriate and use an annual average of 88,000 gallons of surface water per day (gpd) and an average of 1,008,000 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from an intake in a pond on an unnamed tributary of the Sassafras River. The project is located at 682 Wards Hill Road, Warwick, Cecil County, Maryland.

County: Talbot

TA2023G001/01: Town of Oxford has applied to appropriate and use an annual average of 142,000 gallons of groundwater per day (gpd) and an average of 236,000 (gpd) during the month of maximum use for a community water system. Water will be withdrawn from one well in the Magothy aquifer. The project is located at 103 JL Thompson Drive, Oxford, Talbot County, Maryland.
